

"Impact of the Wen Ho Lee Case on Asian American Scientists and Engineers", a presentation by

Prof. Ling-Chi Wang

**Friday, April 12
12 - 1 pm
Berkner Hall**

Prof. Ling-Chi Wang, Chair of Ethnic Studies at U. C. Berkeley, is famous for his community activism and life-long advocacy on social issues .

His academic research and community activism, however, coincide perfectly; He has publications on Asian American Civil Rights Issues, U. S. foreign policies in Asia, and Asian Americans in higher education.

More recently, Wang has played a key role as a strategist with former Los Alamos National Laboratory scientist Wen Ho Lee's battle against espionage charges.

He is also currently actively negotiating with several national labs, (LANL, LLNL, SNL) for an accountable plan that will adequately address the issues of racial profiling and discrimination against Asian Americans.

For more details, visit
<http://www.apaa.bnl.gov/april12.htm>

Prof. Wang will talk about the historical significance of the Wen Ho Lee case - what it means to Asian American scientists and engineers, and how it affects the workplace in both private and public sectors.

Sponsored by the
BNL Diversity Office
and the

BNL Asian Pacific American Association
in cooperation with the
SUNY(SB) Asian American Faculty Staff Association
